

X90-2S
 50kW-140kW
 Modular Online UPS 480VAC Three-phase

Scalable, Modular, Compact 480V UPS with Internal Batteries

The X90-2S is a scalable, modular, online double conversion UPS that protects critical data and equipment from power problems while supplying clean and reliable network grade power. The fully integrated X90-2S UPS includes battery modules and bypass in a single front access cabinet; providing the most compact footprint and simplifying installation.

- Two power module slots accommodate either 50kW or 70kW modules
- Up to sixteen internal battery modules (6 minutes runtime at 100kW)
- Hot swappable power and battery modules
- 10" touch display provides graphic display including status and alarms
- Internal 65kAIC maintenance bypass
- 2 years (USA and Canada)

X90-5S & 10S
 50kW-350kW or 50kW-700kW
 Modular Online UPS 480VAC Three-phase

Scalable, Modular, Compact 480V UPS

The X90-5S & 10S is a scalable, modular, online double conversion UPS that protects critical data and equipment from power problems while supplying clean and reliable network grade power. Optional maintenance bypass in slim matching cabinet providing the most compact footprint and reduced installation costs.

- Up to five (X90-5S) or ten (X90-10S) power module slots
- 50kW or 70kW power modules available
- Touch display provides graphic display including status and alarms
- Optional slim 65kAIC maintenance bypass enables service and repair
- Top or bottom cable access
- 2 years (USA and Canada)

POWER PROTECTION FOR THREE-PHASE APPLICATIONS

Established in 2006, Xtreme Power manufactures UPS, and power distribution units for a global network of OEMs and distributors

Configure your UPS applications using our UPS selector:

XTREME POWER CONVERSION
THREE-PHASE CRITICAL POWER SOLUTIONS

E91

10kW-40kW
Online UPS
208/120VAC Three-phase

Economical, efficient and reliable E91 UPS provides online power protection in a small footprint

E91 UPS provides reliable three-phase online double conversion power for edge facilities, small data centers, network closets, and industrial applications. E91 features unity output power factor to support up to 25% more critical loads than typical UPSs. E91's touch screen LCD allows vital monitoring with interactive power one line, alarms and UPS status.

- Capacities: 10kW, 15kW, 20kW, 30kW, 40kW
- Large touch display provides vital information including status and alarms
- Rear clearance not required (30kW & 40kW)
- Up to three units can be paralleled
- Energy Star 2.0 (10, 15, 20kW)
- 2 years (USA and Canada)

M90U & M90LU

15kW-60kW
Modular Online UPS
208/120VAC Three-phase

Hot swappable power modules provide scalability for expansion and rapid maintenance and repair

The M90U and M90LU UPS are cost effective, modular and online double conversion. Systems can be configured with redundant power and battery modules. M90U UPS includes batteries and maintenance bypass in a single integrated enclosure. The M90LU can be furnished with external battery system for long runtime applications.

- Capacities: 15kW, 20kW, 30kW, 40kW, 45kW, 60kW
- Hot swappable power modules
- Integral rear facing maintenance bypass
- 5.7" LCD display provides a graphic display that includes status and alarms
- 15kW or 20kW modules available
- 2 years (USA and Canada)

M90C-2S & 6S

5kW-8kW or 5kW-24kW
Online Rack or Tower UPS 208/120VAC
Three-phase

Modular, Hot-swappable 3-phase UPS for Continuous Power Availability

M90C is modular, scalable 3-phase UPS which can be configured to meet your capacity, runtime and output distribution requirements. M90C provides unity power factor output providing maximum usable power and avoids any need to oversize the UPS.

- 5kW or 8kW power modules available
- Universal slots and hot swappable modules
- M90C-2S is 6U rack mount or tower – 5kW or 8kW
- M90C-6S tower – 5kW to 24kW
- Integral maintenance bypass
- Input Line Cords: L21-20P or L21-30P are optional for 5kW and 8kW models
- Optional output receptacle panels
- 2 years (USA and Canada)

M90U-80 & M90U-140

15kW-80kW or 15kW-140kW N+1
Modular Online UPS 208/120VAC
Three-phase

Industry leading power density and serviceability

The M90U-80 and M90U-140 are scalable, modular UPS for high density computing environments. Expanded capacity, runtime, or redundancy (N+1) by adding power or battery modules. The M90U-80 includes UPS, batteries, and maintenance bypass in one compact enclosure. M90U-140 includes UPS and maintenance bypass and matches the modular, scalable M90-BC battery cabinet.

- Capacities: 15kW-140kW N+1
- Hot swappable power modules, battery modules, and static switch module
- Integral front facing maintenance bypass
- 10" touch display provides graphic display, including status and alarms
- 15kW or 20kW modules available
- 2 years (USA and Canada)
